

PARENTS' MEET

GD Goenka Public School, Sarita Vihar, recently conducted a workshop for parents. From academic to co-curricular activities, from social environment to personal relationships, children are expected to mark their presence everywhere. The children, more specifically adolescents, while chasing their targets and goals, face pressures and undergo behavioral changes, which even they fail to understand. So parents need to be a referee and coach. The school organised that workshop for this purpose. Senior journalist Prakriti Prasad was the facilitator at the workshop. Prasad, who has written several newspaper articles on parenting, touched upon various issues related to adolescents and discussed case studies. The workshop helped parents understand problems that teenagers face and the ways to nip them in the bud.
