

THEME: Cross-Cultural Collaboration

REPORT: Virtual Collaboration with Higashi Fukuoka High School, Japan

Attended by: Students of classes IX and XI (15 students)

DATE: Wednesday, February 4, 2026

EVENT REPORT

On Wednesday, February 4, 2026, **GD Goenka Public School, Sarita Vihar** conducted a virtual collaborative session with **Higashi Fukuoka High School, Japan**, involving students from Grades 9, 10, and 11 of both schools. The event was designed to promote cross-cultural understanding and global learning by helping students gain deeper insight into each other's country, culture, and way of life.

The session began with school introductions delivered by student representatives from both institutions. Students shared information about their school systems, daily routines, academic practices, and co-curricular activities, providing a meaningful glimpse into student life in India and Japan.

This was followed by an engaging **International Quiz**, conducted by **Shin Edupower**, which served as an effective icebreaker. The quiz generated excitement and friendly competition while encouraging students to collaborate, think critically, and test their knowledge of global and cultural facts.

After the quiz, students participated in an interactive question-and-answer session. Learners from both countries asked insightful questions related to traditions, festivals, education, hobbies, and teenage life. This open exchange of ideas helped build confidence, curiosity, and mutual respect among participants.

The virtual collaboration proved to be an enriching global learning experience, enhancing communication skills, cultural awareness, and international friendship, while encouraging students to embrace diversity and develop a global mindset.
